

**PREVENT**  
Waste Alliance

**Together for a circular economy**

## Who we are

Launched in May 2019 in Germany, the **PREVENT Waste Alliance** brings together organisations from the private sector, academia, civil society and public institutions worldwide. It serves as a platform for exchange and international cooperation.

## Our objectives

We want to contribute to

- **minimising waste,**
- **eliminating pollutants and**
- **reutilising resources in the economy.**

We strive to reduce waste pollution in low- and middle-income countries through developing functioning waste management and circular economy approaches.

We work together for waste prevention, collection, and recycling as well as the increased uptake of secondary resources.

## How we work

We **share our knowledge** around the topic of circular economy.

We connect different perspectives and act in **international cross-sectoral partnerships.**

We incubate and pilot **scalable circular economy solutions** worldwide.

We contribute to shaping **international guidelines and standards** for circular economy solutions.

## Our working groups

We engage in thematic working groups, in which activities are planned and implemented.
